

We're PASMA members!

Here at *SOUTHERN CRANES & ACCESS*, we pride ourselves in being on the forefront of training and assessment in the construction industry. We always strive to maintain to current industry practices and keep up with current regulations. As such, we are proud to now be members of the "Prefabricated Access Suppliers' and Manufacturers' Association" (Pasma). *SOUTHERN CRANES & ACCESS* is a **PASMA** approved Training and Assessment Centre!

PASMA is best known for its training programme, which helped more than 24,000 users improve their safety and operational performance during 2005. Only available from **PASMA** Registered Training Centres, the authorised programme is not available from any other source. You can view more details on **PASMA** at their web-site:

<http://www.pasma.co.uk/>

We are confident our **PASMA** membership will allow us to yet further improve the standard of our training courses.

Our 'Aluminium Scaffold Tower' courses will now be under the **PASMA** scheme. The course is available either at our Pulborough centre, or on site if possible. We can accommodate up to 12 people at a time, so there is always a good chance you will be able to get a space with us. You can view further details of the course here:

<http://www.southerncranes.co.uk/go/training/courses/scaffold/>

Alternatively, call Andrew Packham on 01798 875988 or 07834 480160 and book a place on the course.

We now run Winching courses!

SOUTHERN CRANES & ACCESS is now running a course in using winches. Call Andrew Packham if you are interested.
